23:02 **Your Question: transferring my domain name from godaddy**

23:02 **Please wait, an operator will be with you shortly.**

23:02 **You are now chatting with Mikhail Kazakov (Concierge CS) - Domain Transfers Support**

23:02 **Jinwoo Yom:** hello

23:02 **Mikhail Kazakov:** Hello Jinwoo Thank you for contacting Namecheap Support! Could you please specify the domain name in question?

23:03 **Jinwoo Yom:** jinwooyom.com

23:03 **Mikhail Kazakov:** Thanks, checking

23:03 **Jinwoo Yom:** I have this domain with GoDaddy.com currently but I am looking to transfer to somewhere else that is more affordable.

23:04 **Jinwoo Yom:** I already have a Authorization code from GoDaddy, however I am wondering if there is an automatic subscription when I pay for the transfer?

23:05 **Mikhail Kazakov:** Thank you for this information

23:05 **Mikhail Kazakov:** May I know which subscription you mean?

23:05 **Jinwoo Yom:** a year subscription

23:06 **Mikhail Kazakov:** Oh, I am sorry for my misunderstanding

23:06 **Jinwoo Yom:** for the Domain name after the transfer

23:06 **Mikhail Kazakov:** Sure, the year will be added to your domain registration

23:06 **Jinwoo Yom:** so right now it says that it costs \$9.69 for the transfer

23:07 **Jinwoo Yom:** so does that include a year domain registration as well?

23:07 **Jinwoo Yom:** did I understand that correctly?

23:07 **Mikhail Kazakov:** Yes, it does. The transfer is actually \$9.69 + \$0.18 ICANN fee

23:07 **Mikhail Kazakov:** However, since you are transferring a domain from GoDaddy, feel free to use our special coupon code:

23:08 **Mikhail Kazakov:** ByeByeGD

It allows you to transfer .COM domains at \$7.99 + \$0.18 ICANN fee, .NET domains at \$9.27 + \$0.18 ICANN fee, .BIZ domains at \$10.44, .ORG domains at \$8.79 and .INFO domains at \$9.99.

23:08 **Jinwoo Yom:** oh awesome. that sounds great. also how long would the transfer take?

23:09 **Mikhail Kazakov:** It usually takes up to 5-7 days

23:10 **Mikhail Kazakov:** However, the transfers from GoDaddy can be sped up

23:10 **Mikhail Kazakov:** So they can be performed in less than an hour

23:10 **Mikhail Kazakov:** If you wish, I will assist you with it right now

23:10 **Jinwoo Yom:** how can I do that and would that cost extra?

23:11 **Mikhail Kazakov:** It will not extra cost anything

23:11 **Mikhail Kazakov:** To proceed, please provide me with the Auth/EPP code for the domain

23:12 **Jinwoo Yom:** oh gotcha, so would we be able to do that if I am planing on migrating my GoDaddy Hosting to AWS in next few days?

23:13 **Jinwoo Yom:** I don't know how difficult it is to change the IP of the DNS once I have my EC2 Instance ready

23:13 **Jinwoo Yom:** and the downtime it may cuase

23:13 **Mikhail Kazakov:** I will check it now, please hold on

23:17 **Mikhail Kazakov:** I would recommend that you perform the hosting migration at first, Jinwoo

23:18 **Mikhail Kazakov:** As otherwise, there may be a downtime for your website

23:18 **Jinwoo Yom:** okay, that sounds reasonable

23:19 **Jinwoo Yom:** when I have my hosting migration ready, could I get the same service. aka the quick DNS transfer from goDaddy?

23:19 **Mikhail Kazakov:** Once you finish the migration, feel free to use this guide to submit the transfer:

<https://www.namecheap.com/support/knowledgebase/article.aspx/876/83/how-to-transfer-a-domain-from-godaddy>

23:19 **Mikhail Kazakov:** and use our coupon code

23:19 **Mikhail Kazakov:** Sure, although it will be a domain transfer (not a DNS transfer)

23:19 **Jinwoo Yom:** yes Domain transfer*

23:20 **Jinwoo Yom:** and the code was ByeByeGD correct?

23:21 **Mikhail Kazakov:** Yes, totally correct

23:21 **Mikhail Kazakov:** Everything will be possible after the transfer as well

23:21 **Jinwoo Yom:** awesome thank you very much for your help!

23:22 **Mikhail Kazakov:** You are most welcome

23:22 **Mikhail Kazakov:** Thank you for considering our services!

23:23 **Jinwoo Yom:** Before I go, could I ask one additional question regarding SSL?

23:23 **Mikhail Kazakov:** Sure

23:24 **Jinwoo Yom:** how much would it cost to get a SSL for my personal site after the transfer?

23:25 **Mikhail Kazakov:** You can have the SSL applied to the transfer order for just \$1.99

23:25 **Jinwoo Yom:** oh that sounds great and how long would that SSL be valid for?

23:27 **Mikhail Kazakov:** It is usually valid for a year. After that it will need to be reissued

23:27 **Jinwoo Yom:** is the price same (\$1.99) for the SSL reissue?

23:28 **Mikhail Kazakov:** No, it will be another price

23:29 **Mikhail Kazakov:** It will be \$9.00

23:29 **Jinwoo Yom:** gotcha

23:29 **Jinwoo Yom:** thanks for the information

23:30 **Mikhail Kazakov:** You are most welcome

23:31 **Jinwoo Yom:** I believe that answered all my questions for now, I will reach out again once I finish switching over my hosting which shouldn't take too much longer

23:31 **Mikhail Kazakov:** Sure, feel free to get back to us any moment
